Maxi Calf

Maxi Calf is a grain based, very palatable **high protein**, high energy feed to be fed to beef calves in conjunction with pasture, hay or chaff.

Maxi Calf is ideally suited to **creep feeding**, early weaned or unweaned feeding applications.

When used as directed Maxi Calf will safely and effectively ensure optimum digestive development and calf growth.

It is recommended to offer Maxi Calf Ad Libitum to calves.

We recommend using Maxi Calf until calves are over 120kg before switching to Maxi Weaner.

Maxi Calf contains sodium monensin to control coccidiosis, to ensure **optimum calf health**.

Maxi Calf contains Bovacillus, a natural probiotic developed to improve the digestive health of cattle.

Contains essential minerals and vitamins.

Nutrients Dry Matter Basis

Dry Matter	88% min
Crude Protein	22% min
Equiv Crude Protein	0%
Urea	0%
Energy	12.0mj me/kg min
Calcium	0.75% min
Phosphorus	0.4% min
Sodium Monensin	55mg/kg
Ingredients	Benefits
Rolled Sorghum	High Protein
Cracked Chickpeas	High Energy
Bovacillus	Highly Digestive
Protein Meal	Highly Palatable
Molasses	Contains Bypass Protein
Calf Concentrate	Promote Rumen Development
	Essential Vitamins and minerals
	Sodium Monensin to aid in Coccidiosis Prevention
